

KONE Robotic Integration Solutions

Seamlessly connect autonomous robots with KONE elevators using secure and flexible integration solutions.

KONE Robot Integration Solutions enable compatible robots to travel autonomously throughout your building by connecting directly with KONE elevators. Secure, flexible, and scalable, the solution helps prepare buildings for the next generation of automation and smart building technologies.

Key enabled capabilities

- ✓ Call elevators automatically
- ✓ Receive real-time elevator status information
- ✓ Travel autonomously between floors
- ✓ Operate more efficiently with minimal human intervention

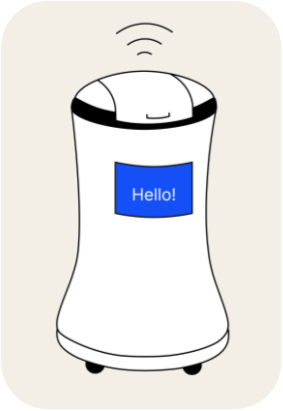

Applications enabled by KONE Robot Integration

Cleaning robots

Operate across multiple floors while supporting cleaning staffs and improving operational productivity

Security robots

Enable autonomous patrols and monitoring across larger building areas.

Delivery robots

Transport parcels, food, supplies, and documents autonomously throughout the building.

Logistics robots

Transport of equipment, supplies, linen, and materials across facilities, helping streamline operational workflows.

Flexible Integration Options

We offer multiple solutions to meet different operational and security requirements, including:

Low-Level Integration	**OPC UA Integration**	**Cloud API**	**Site API**

Already working with a robot vendor?

We provide the integration layer that enables compatible robots to interact with KONE elevators, supporting seamless floor-to-floor movement throughout your building. KONE works with a growing ecosystem of robotics partners and can help determine the most suitable integration approach for your building.

Contact your KONE representative today to explore robot integration solutions for your building.
