

IN AN ERA OF DIGITALIZATION, WE CAN HELP ELEVATE YOUR GUESTS' EXPERIENCE.

From concierge, butler, delivery, front-desk, room service to cleaning for your hotels, the use of robots is limitless. A new wave of robots is now being introduced in the hospitality industry - and they are rapidly gaining momentum.

Beat manpower crunch and increase efficiency through use of robots in your hotels.

Enable your robots to move seamlessly across different levels in your buildings to carry out their tasks efficiently.

Real-time traffic data about the assigned elevator's status and direction smooths the robot's journey.

To deliver an unparalleled guest experience, a smooth people flow is key. We can help select the right type of robots, have it operationalized seamlessly and securely in your hotels including accessing different levels within the building and allowing you to manage via a dashboard that is in-built with AI.

Contact us at robot-support@ncs.com.sg and find out all you need to know on implementing robotics solution at your premises.
