

SAFER AND MORE EFFICIENT HOSPITALITY

Introducing a new level of experience and service standards. With the combinations of **KONE's solutions** and **Yunji Technology's intelligent robotic services**, enable the delivery of a safer, secure and more efficient experience for your residents.

Health & Well-being and Un-intrusive Service

Contactless solutions reducing exposure to harmful bacteria and maximum protection of guests' private space

Improving and enhancing experiences

Customers are 3 times more willing to return to hotels with robot service

Increase efficiencies

Save at least 10 man hours with completion of average 140 tasks during peak season

Unlocking value in your assets

Differentiate and future-proof your assets
